COMPANY PROFILE

Vikram Builders is a company that prides itself in quality results and believes in capability with care. Since our inception in **1987**, we have become a highly respected face within India's Infrastructure Sector. We are known to complete all projects on time & budget while meeting every required quality standard through our vast involvement.

Vikram Builders was formed by **Mr. Vallabh Patel, Mr. Pravinbhai Patel** and **Mr. Shailen Desai** who are actively involved in the day-to-day operations of the business. All these founder members having their reputed offices in Vadodara got together for a Venture to tap new construction opportunities in the field of Engineering, Fertilizers, Petrochemicals, Thermal Power Stations, Pharmaceuticals, Educational Institutes, Hospitals, Chemical Plants, Sugar Plants, Multiplex and other Industrial projects with their expertise and experience.

The size and capability of our team along with the tools and modern hi-tech machineries currently allows us to provide best-in-industry services.

We believe in providing an exceptional customer experience in order to differentiate ourselves from our competitors. More importantly, honesty and transparency matters greatly to us and we strive to maintain our impeccable reputation by conducting business honestly and timely.

If we say we'll do something, we mean it. If there's a problem, we'll fix it. You have our word.

VISION

Vikram Builders aims to become the leading Construction Company and be recognized as trendsetter for its work methods and innovations in delivering projects with international standards.

MISSION

Create an outstanding impact through our principles and thereby be proven as the most valuable for our esteemed clients everytime they designate us for their construction needs. We also aspire to be known for our perfection in work and satisfaction to our clients.
